PowerMate

PRESTOLITE POWER™

Prestolite PowerMate SCR Battery Charger is used to charge both flooded and sealed batteries.

- 24, 36 or 48 volt chargers
- DV/DT charge termination
- SCR technology
- On-board applications
- Standard 120VAC input

Charger Features
The PowerMate is a fully automatic SCR Battery Charger with three different user selectable battery types.

SCR Technology
The PowerMate is designed with the tried and true SCR Technology to effectively charge batteries of different types.

On-board application
The PowerMate may be hard wired directly to the battery, eliminating the need for dedicated charging areas.

Automatic Start/Stop
Simply connect the battery to the charger, after a preprogrammed five-second delay the charge cycle starts.

Status at a Glance
The PowerMate ammeter provides an accurate at-a-glance charge current to inform the user of the charge status.

Warranty
The PowerMate Battery Charger is warranted to the original purchaser for one year from date of shipment.

Battery Voltage	Model Number Note: CC units are UL listed CAN units are UL & cUL listed	Max. Output Current	Battery AH Range	Input Voltage	Max. AC Input Current	Input Plug Type

TECHNICAL DATA

Dimensions: 9.5" x 8.75" x 11" (H x W x D)

Microprocessor controlled automatic start/stop control circuitry

Internally user selectable battery type profiles for flooded or sealed (AGM or Gel) batteries

Back-up timer protection

Input circuit breaker protected

Output fuse protected
